P.T.O

1. Deputy Director Agri- Business.

- Monitor national and state-level agriculture-related support programs and identify and promote suitable programs within the Project areas.
- Design suitable programs and facilitate implementation of irrigated agriculture, horticulture, livestock rearing, and allied activities through collective action at PP level in the field of Agri-Business.
- Support development of linkage of PP with agriculture, horticulture, animal resources development and other line departments, institutions, organizations, KVK, OUAT Research Centres, CRRI and other Central Government Research Institutes etc and bring in convergence of their activities at the grass root level.
- In conformity with Odisha Pani Panchayat Act 2002, support DoWR in organization of Pani Panchayats in the Project area. Operationalise the methods, procedures, and systems for functioning and strengthening the PP in the Project area.
- Support PP, in collaboration with other Deputy Directors of the Unit, to develop Micro Plan for each PP focusing on agriculture, programs allied to agriculture and different livelihood support activities.
- Work with the CADA and DoWR engineers to develop and implement a process for on-farm water management, operation and maintenance of minor, sub-minor etc by water users.
- Work with members of the PMC Expert Group to prepare training materials for PP, DOWR, WALMI, CADA and other stakeholders and assist in providing training.
- Promote improved crop husbandry practices, including - promotion of the use of improved certified seeds - promotion of integrated nutrient management (INM), including the use of recommended amounts of fertilizer - promotion of improved cropping systems, including intercropping, alley cropping and relay cropping - promotion of integrated pest management (IPM) - promotion of the use of bio-fertilisers, including composting - promotion of organic farming - promotion of regular soil testing in each PP;
- Demonstrate diversified crop systems that include commercial cropping and a range of non-rice cash crops through Farmer Field Schools and other extension methods.
- Formulate indicative seasonal plan with development options including specific crops, cropping patterns, crop calendar and detailed cropping practices for major crops.
- Develop and support a program that improves farmers' access to agricultural inputs including new high yielding seed varieties and simple improved agricultural machinery, tools and implements.
- Will function as the Coordinator for the members of the Unit and support the Experts of the PMC and Field level Teams in working with the PP ensuring that they in turn are providing appropriate support to the PP.
