

Department of Water Resources

Introduction: To rationalize irrigation development in the state, the Government has decided to provide irrigation facilities to atleast to 35% of the cultivable land in each block. Preliminary scrutiny reveals that irrigation coverage in 198 blocks is less than 35% of the cultivable area. The existing schemes such as AIBP, RIDF, JBIC at State level & RSVY, NREGS, WODC, FFW at district level are being used to achieve the desired objective.

Abstract of Progress of Master Plan for 35% Irrigation Facility in 198 Blocks of Odisha (by March 2022)
